PRODUCT REALISATION

Our Product Realisation service allows you to bring your idea to life with minimum hassle. Every great product starts with an idea, and with our end-to-end service you can turn your thoughts into our actions as we support you through the process. With over 30 years of experience, we will help create a design, provide business advice, build a prototype, manufacture and distribute your product in the market - a total innovative solution.

YOUR IDEA

Have you got an idea that you'd like to bring to life? Combine your innovative concept with our experience and turn your idea into a reality.

01

DESIGN

Our relationships with specialist design houses means that we'll work together to provide industry knowledge and experience, dedicating time and effort to creating a design you're happy with.

02

BUSINESS ADVICE

We provide you with advice and consultancy on how to successfully take your product to market. From business management support to guidance on funding, we're with you every step of the way.

03

MANUFACTURING

At the heart of our business is the provision of electronic manufacturing services, and producing top quality products. Working together, we'll use our skills and knowledge to help take your product one step closer to market.

05

PROTOTYPING

Creating a prototype offers the chance to see your concept as a fully-functioning product. We will test the usability of your product, ensuring it's of the highest quality and ready for market.

04

DISTRIBUTION

With wholly owned facilities in the UK, Romania and Hong Kong, we will support your global fulfilment and distribution needs.

06

ONGOING SUPPORT

We're with you from start to finish, but it doesn't end there. We offer a service of continued support and engineering knowledge to ensure that you receive a total Product Realisation solution.
